

NAIEM UR RAHMAN RIYAD

Aspiring Data Analyst | Data Science Enthusiast

rahman.riyad21@gmail.com | +880-1864873043

Dhaka, Bangladesh

[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

A Detail-oriented Computer Science & Engineering graduate skilled in data analysis, SQL, Python, and Excel, with hands-on experience building interactive Power BI dashboards and DAX-driven reports. Proven ability to clean, analyze, and interpret large datasets to uncover actionable insights, identify trends and discrepancies, and support data-driven decision-making. Experienced with ETL pipelines, KPI tracking, and predictive modeling. Strong analytical mindset with excellent communication skills in English and Bangla, comfortable working with cross-functional teams and stakeholders

TECHNICAL SKILLS

Programming & Querying: Python, SQL, C++

Data Visualization: Power BI, Tableau, Metabase, Matplotlib, Seaborn, Advanced Excel / Google Sheets

Databases: MySQL, PostgreSQL, Supabase

Tools & Platforms: Appsmith, GitHub, Jupyter Notebook, Google Colab, VS Code, Trello, Visio, Lucidchart

Machine Learning & AI: Supervised & Unsupervised Learning, Model Evaluation Metrics, Explainable AI

Soft Skills: Analytical & Problem-Solving, Interpersonal Communication, Customer-Oriented Mindset, Teamwork, Time Management, Ability to Work Under Pressure, Learning Agility

EDUCATION

M.Sc. in Computer Science and Engineering

April 2026-Present

Daffodil International University

- Major in Data Science

B.Sc. in Computer Science and Engineering

Jan 2026

Daffodil International University

- CGPA: 3.50 / 4.00
- Relevant Coursework: Database Management, Computer Networks, Operating Systems

Higher Secondary Certificate (HSC)

2020

Alamgir Monsur Mintu Memorial College

- GPA: 4.83 / 5.00

PROJECTS

FMCG Sales Analysis | SQL, Power BI, DAX, Power Query [\[GitHub\]](#) [\[Live Demo\]](#)

- Developed a 3-page interactive Power BI dashboard analyzing 28.55M BDT revenue using 13 SQL query modules and DAX measures (GP Margin, YoY Growth, Return Rate) with dynamic filtering.

Telecom Customer Churn Analysis | SQL, Power BI, Python [\[GitHub\]](#) [\[Live Demo\]](#)

- Built ETL pipelines and a Power BI dashboard, and trained a Random Forest model to predict churners and identify high-risk customer segments.

Ride-Sharing Business Performance Analysis | Power BI, DAX, Power Query [\[GitHub\]](#) [\[Live Demo\]](#)

- Built an interactive Power BI dashboard analyzing Uber trip KPIs (bookings, revenue, distance and time trends) using DAX measures and slicers.

Bank Loan Performance Analysis Dashboard | SQL, Power BI, DAX, Power Query [\[GitHub\]](#) [\[Live Demo\]](#)

- Built a multi-page Power BI report analyzing a loan portfolio, tracking MTD/MoM trends to segment good vs. bad loans and assess borrower risk.

Healthcare Data Insights Dashboard | Power BI, DAX, Data Modeling [\[GitHub\]](#) [\[Live Demo\]](#)

- Built a multi-hospital Power BI dashboard with DAX measures tracking total billing, average length of stay and other operational KPIs.

CERTIFICATIONS

- Data Analytics and Power BI – Interactive Cares
- Intermediate SQL – DataCamp

LANGUAGES

- Bengali – Native
- Hindi – Conversational
- English – Professional Proficiency
